

RICHTER P. MAYANDOC

Full Stack Website Developer | PHP & Laravel Specialist

+63 916 982 4195 | rmayandoc0625@gmail.com | [LinkedIn](#) | [GitHub](#) | <https://richter-portfolio.vercel.app/>

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building scalable web applications using PHP, Laravel MVC architecture, MySQL, and JavaScript. Demonstrated ability to design RESTful APIs, optimize database performance, and deliver end-to-end solutions from UI to backend. Adept at version control with Git, agile collaboration, and applying software development best practices. Seeking an entry-level or junior developer role to contribute to impactful projects.

EXPERIENCE

Full Stack Developer Intern

Mar 2026 – Jun 2026

City of Ilagan Medical Center | Ilagan City, Isabela, PH

- Engineered a centralized medical records system using PHP/Laravel MVC and MySQL, digitizing patient data across a 486-hour internship and reducing physical file volume by 20%.
- Designed and optimized the database schema, improving patient history query performance and reducing storage footprint by 20% through image compression and architectural refinements.
- Collaborated with hospital IT staff to diagnose and resolve system bottlenecks, enhancing overall application workflow efficiency.
- Produced comprehensive technical documentation and system manuals, facilitating seamless knowledge transfer to internal IT teams.

FEATURED PROJECT

Mt. ClaRamuel Resorts Reservation System

Jun 2025 – Mar 2026

- Built a full-stack online reservation platform with Laravel MVC, integrating the MAYA API payment gateway and PhilSMS API for secure transactions and automated SMS notifications.
- Implemented strict server-side validation logic to prevent duplicate bookings and engineered a RESTful backend with role-based access control (RBAC) for secure data management.
- Developed a centralized admin dashboard that improved operational efficiency and reduced staff onboarding time through an intuitive UI.

Credential & Academic Verification System

May 2026 – Jun 2026

- Architected a secure document authentication platform with automated validation workflows and tamper-proof reporting logic, significantly reducing fraudulent credential submissions.

Abuan Booking System

Aug 2024 – Dec 2024

- Developed a facility management dashboard leveraging CRUD operations and RBAC for efficient booking control and database security against unauthorized access.

Pageant Tabulation System

Aug 2023 – Dec 2023

- Built an automated scoring engine with real-time leaderboard computation and live data synchronization for concurrent judge submissions, ensuring 100% accuracy during live events.

EDUCATION

Bachelor of Science in Information Technology

Aug 2022 – Jul 2026 (Expected)

Isabela State University | Ilagan City, Isabela, PH

TECHNICAL SKILLS

- Languages:** PHP, JavaScript, TypeScript, Python, HTML, CSS
- Frameworks & Libraries:** Laravel, Django, React, Bootstrap, Tailwind CSS
- Backend & APIs:** RESTful API Development, Webhooks, Laravel Sanctum, Payment Gateway Integration
- Databases:** MySQL, Microsoft SQL Server, SQLite, Query Optimization, Database Design
- Tools & Platforms:** Git, GitHub, VS Code, Figma, Ngrok, Composer, Artisan CLI
- Practices:** MVC Architecture, CRUD Operations, RBAC, Agile Collaboration, Technical Documentation

CERTIFICATIONS & ACHIEVEMENTS

- Relational Database Design** – Microsoft (March 2026)
- SQL Foundations** – Coursera (March 2026)
- Research Presenter ("ReserveMate: A Web-Based System")** – 1st International Conference (September 2025)
- Top Performer (Excellence in Assessment)** – DICT Region II Python Essentials
- IT Specialist in Database** – Certiport (June 2024)
